Dear Harold:

While at the plant this week I was following up on your book.

Enclosed find some cover samples which were completed and ready to bind with the body printing which was occurring on Wednesday afternoon. George advises me that we should ship on Friday, October 24 and you should have books by Wednesday or Thursday. We will ship the three cartons via UPS per your request earlier, if possible, and these should arrive sooner for you.

We ran into a delay on the envelopes but we will expedite the shipment to you next week and will use a faster method than planned, such as Air Freight or UPS, and will absorb the cost difference due to our problem on this.

Sincerely yours,

Bruce K. Waterhouse
